**The destination in Tunisia operated by the Nicolaus Group with a weekly flight from 19 July**

Djerba, one of the most popular international destinations in the Mediterranean, can once again be reached by direct weekly flight from Milan Bergamo Airport from Tuesday 19 July. The destination is one of the most important in the range of services offered by the Nicolaus Group, which has added it to its prestigious routes for 2022, relaunching the tourist attraction popular for its Caribbean sea and sand and for its excursions and mini tours in Southern Tunisia.

For the 2022 season, the Nicolaus Group has decided to focus on Milan Bergamo Airport also for its flights to the island of Djerba. Thanks to an agreement with the airline Air Malta, there will be a flight every Tuesday from 19 July to this beautiful island in the Mediterranean sea, arriving in less than two hours on board a 180-seat Airbus A320.

*"We are delighted to be once again programming flights for a destination such as Djerba, and above all to be doing so from Milan Bergamo Airport, a strategic hub for the Italian sector. This destination allows the market to offer a large number of proposals that provide highly competitive value for money.
