PRESS RELEASE

23 December 2022

EASYJET EXTENDS THE MILAN BERGAMO - LISBON ROUTE TO COVER THE ENTIRE SUMMER 2023 PERIOD

easyJet - a leading European airline - today announced that the international route from **Milano Bergamo** airport to **Lisbon**, which was launched on 30 October 2022, will be extended to cover the entire summer 2023 period. The route, which was initially programmed exclusively for the winter season, will remain operational all year long, from next April **until the end of the summer**.

The Christmas holidays have therefore brought exciting news for Bergamo passengers who are already dreaming of next summer and now, thanks to easyJet, have a longer period of time to plan their journey to explore the lush Portuguese capital.

The operative characteristics of the route - which is already available on the website [easyjet.com](https://www.easyjet.com), the mobile app and GDS channels - remain the same, with three flights per week every **Tuesday, Thursday and Sunday**.

Lisbon is the latest route to be added this winter to the extensive network of European destinations that can be reached in just a few hours from **Milan Bergamo** airport thanks to easyJet, and the airline offers a huge range of capitals to choose from, from Amsterdam to Paris, as well as London, to spend the upcoming spring breaks and the beginning of the summer in the best possible way.
