

Eataly opens in Milan Bergamo Airport

The high-quality food outlet has come to the number-three airport in Italy in terms of passenger traffic with a 180-cover restaurant and a market area offering typical Made-in-Italy products, which are destined to travel the world.

Bergamo, 15 December 2023 - Eataly has opened a 750-square-metre restaurant in the boarding area of Milan Bergamo Airport, which in 2023 exceeded 15 million passengers and thus consolidated its position as the number three Italian airport.

"We are delighted to be opening Eataly in a location that will offer us the opportunity to encounter Italian and foreign travellers, offering them a selection of Italian dishes prepared with simplicity and with quality ingredients - explained Simone Tosato, global head of franchising for Eataly. - The demand for Italian food is constantly growing, and this is why we are working constantly on our offer to bring it ever more in line with the demands of clients choosing Eataly during their journey".

"The partnership with Eataly marks a prestigious milestone in the promotion of excellent products, food and drinks undertaken throughout the progressive expansion of the airport - stated Matteo Baù, commercial non-aviation director for SACBO. - We are honoured to welcome an internationally renowned brand that contributes to further qualifying our airport, which once again, in the third quarter of 2023, was voted the best in Europe for retail and food by the ACI World survey".

Eataly Bergamo Orio Al Serio is located between gates A14 and A15 and offers the opportunity for a high-quality culinary break for those in the terminal awaiting their flight. The formula offers a blend of restaurant and market and allows passengers to both stop to eat and to purchase a number of the most typical Made-in-Italy products to take around the world and replicate the authentic experience of Italian flavour.

The range of snacks is characterised by freshly baked pizza "alla pala", panini, a selection of desserts and coffee. The kitchen, equipped to serve more than 180 covers, has a menu that includes Eataly's iconic dishes, such as the tomato spaghetti, as well as dishes inspired by the seasons, such as tagliatelle with porcini mushrooms or cappellacci pasta with pumpkin. The grilled meat and fish main dishes include hamburgers, Fassona beef tagliata, chicken breast or seared tuna. There is an extensive range of typical charcuterie boards, served with plain focaccia, fruit preserves or honey. The wine and cocktail menu has been created for aperitifs or moments of relaxation.

The challenge to offer travellers carefully prepared, quality food in the limited time available to travellers continues with Autogrill, located after the Secchia Ovest motorway service station, and the Eataly outlets in terminals 1 and 3 at Rome Fiumicino airport.

**Eataly**

Eataly is a unique organisation that has always aimed to provide an international showcase for the excellence of Italian food. Active in the distribution and commercialisation of high-quality products, integrating production, sales, restaurants and education, Eataly is the only truly international Italian company in the retail food sector, as well as a symbol of Italian food and, more generally, of Made-in-Italy quality. Since 2023, the group has been 52% owned by Investindustrial, a leading independent European investment company. Eataly currently has more than 5,000 employees and more than 50 outlets in 15 world countries, including Italy, the United States, Canada, the United Arab Emirates, Japan, Germany, Great Britain, France, Sweden, Brazil, Turkey, South Korea and Saudi Arabia. It is currently implementing a significant programme of new outlets in some of the most important world cities. Further information is available on www.eataly.it
