

16 January 2024

## **Norwegian Air Shuttle inaugurates flights to and from Tromsø, the first of six destinations served from Milan Bergamo Airport in 2024.**

Norwegian Air Shuttle has strengthened its presence at Milan Bergamo Airport by inaugurating the new route to Tromsø, the city situated to the north where the beauty of the Norwegian winter landscape and the northern lights can be enjoyed. The flights, programmed on Tuesdays and Saturdays until 3 April 2024, recommenced on 16 January with the arrival of the Boeing 737-800 winglet operated by the Norwegian airline on the runway at Bergamo airport.

31 March will see the recommencement of Norwegian Air Shuttle flights between Milan Bergamo and Bergen every Wednesday and Sunday until 23 October 2024, **with additional flights on Mondays and Fridays between 21 June and 16 August**, as well as to Oslo Gardermoen every Thursday and Sunday. Bergen, a city situated on the south-western coast of Norway, is located close to Sognefjord, the longest and deepest fjord in Norway. Oslo-Gardermoen is Norway's main airport and is directly connected by train to the capital. The journey takes 20 minutes.

The summer offer from Norwegian Air Shuttle to Norway is completed with the new addition of Stavanger, in the south-western part of the country, the location of the Petroleum Museum and the perfect departure point for some of the most attractive explorations of nature. Flights to Stavanger, programmed from 18 May to 28 September, will be running twice a week, every Wednesday and Saturday with the exception of the period between 21 June and 16 August, when they will be operating every Tuesday and Friday.

Through its subsidiary Norwegian Air Sweden, the Norwegian airline will be offering four weekly flights connecting Milan Bergamo with Copenhagen, from 31 March to 25 October, and with Helsinki from 2 June to 24 October, on Tuesdays, Thursdays and Sundays.

*"The programming offered by Norwegian Air Shuttle at Milan Bergamo airport allows for an expansion of the network of destinations in the Scandinavian area, responding to both demand for incoming flights, allowing the heart of Lombardy to be reached for tourism and business, and to demand for outgoing traffic", stated Giacomo Cattaneo, director of Commercial Aviation for SACBO. "Our partnership with Norwegian Air Shuttle is strategic, and is consolidating in 2024, offering increasingly promising opportunities for collaboration".*
