6 INTERCULTURA SCHOLARSHIPS OFFERED BY SACBO AND BIS

The Executive Offices of SACBO hosted the ceremony to present the scholarships offered by SACBO and its subsidiary BIS (BGY International Services) in collaboration with Intercultura for high-school students.

The six winners, three awarded by SACBO and three chosen as the most deserving among those participating in the Work Experience Project at Milan Bergamo Airport, will have the opportunity to stay in Dublin from 21 July to 16 August, when they will conclude their experience of studying the English language and the culture of Ireland with a visit to the headquarters of the airline Ryanair.

The ceremony saw the participation of Amelia Corti, the Managing Director of SACBO, Laura Monteleone from the Human Resources Directorate of SACBO, and the representative of Intercultura for the city and province of Bergamo, Mietta Rodeschini.

The president of SACBO, Giovanni Sanga, expressed his hopes that the young students make the most of the experience they are about to enjoy, an opportunity for learning and developing their sensitivity towards, and inclination for, international relations, stressing his appreciation for the collaboration with Intercultura, which lends additional value to the activities that, over the course of the school year, allow the students to take part in the working life of the airport.

The recipients of the SACBO scholarships are: Anna Bizzarri (Giovanni Falcone Linguistic High School, Bergamo), Giulia Piccoli (Ettore Majorana Institute, Seriate), Giorgia Spina (Giulio Natta Institute, Bergamo). The three BIS scholarships were presented to three students from the don Lorenzo Milani High School in Romano di Lombardia: Martina Banzola, Alberto Esposito and Giada Pagani.

During the ceremony, a group of five students from the Guglielmo Marconi Institute of Dalmine presented the winning project of the Hackathon *#ideas for future*, developed for the mobility sector of SACBO.
